

## Notice Regarding Supplemental Roofing Information Package

**To:** All Roofing Contractors, General Contractors, Design Professionals, Owners/Authorized Owner Representatives, and Permit Expeditors

**From:** Michael DiNorscio, Building Official

**Date of Effect:** Monday – April 19, 2021

Please be advised that an amended/updated Supplemental Roofing Information Package is in effect per the above-referenced date and to be used with all Roofing application submittals effective immediately. The purpose of this notification is to inform you that all submitted supplemental roofing applications will be required to indicate the roof uplift pressures and attachment specifications per FBC-Res R301, FBC-Bldg. 1609, ASCE 7-16 and FRSA/TRI 6th Edition, as applicable.

**Acknowledgment:**

I have carefully reviewed all sections of the Updated Supplemental Roofing Information Package and indicated all pertinent information with special attention to roof uplift pressures and attachment specifications per FBC-Res R301, FBC-Bldg. 1609, ASCE 7-16 and FRSA/TRI 6th Edition, as applicable.
