Contractor Affidavit for Hurricane Mitigation

Hurricane Mitigation Manual Retrofit Techniques Section 706.8.1

Section 706.8.1 Roof-to-wall connections for structures with wood roof decks.

Where required by Section 706.8, the intersection of roof framing with wall below shall be strengthened by adding metal connectors, clips, straps, and fasteners such that the performance level equals or exceeds the uplift capacities as specified in Table 706.8.1. As an alternative to an engineered design, the prescriptive retrofit solutions provided in Sections 706.8.1.1 through 706.8.1.7 shall be accepted as meeting the mandated roof-to-wall retrofit requirements.

I _____ the Contractor/Qualifier do affirm and certify that the Hurricane Mitigation Retrofits installed under permit number _____ and located at _____ was installed under my supervision; and the Mitigation Retrofits are installed in compliance with Section 706.8.1. The retrofits installed are described in the following sections:

Number of photos provided with this affidavit _____. Existing anchors were found to have (number of) _____ fasteners; (number, size, and type) _____ additional fasteners were installed to make a total of _____. Additional anchors (manufacturer and model number) _____ were installed using (number of) _____ fasteners (size and type) _____.

Other method of retrofit used (describe in detail or attach additional sheet)

By his/her signature below, the Contractor/Qualifier does affirm and certify that the previously provided applicable information for the roof-to-wall installed under permit number _____ and located at _____ this work was done under his/her supervision.
