

Solar (Thermal/Photovoltaic) Checklist

Required Permit Applications:

- Palm Beach County Universal Permit Application (Plumbing and/or Electrical checked)
- Roof Warranty Notice for Residential or Commercial Roof (Whichever Applies)
- Solar Thermal / Photovoltaic Roof Attachment Affidavit.

Construction Documents/Details

- Roof Plan – Scale drawing indicating the location of the solar panel's being installed on the roof
 - For Solar Thermal Systems
 - Plumbing riser diagram showing the piping layout (type, size, and anchor details)
 - Specification sheets, installations manual (if available) for all manufactured components including, but not limited to, solar panel, recirculation pumps, supporting frames and mounting.
 - Provide the attachment details, flashing details, construction design for the unit and any supporting frame members (sealed by the appropriate design professional) for the Wind Zone, additional loading, and any site conditions.
 - For Photovoltaic Systems:
 - Electrical diagram showing PV array configuration, wiring system, overcurrent protection, inverter disconnect, grounding, required signed and AC connection to building.
 - Specification sheets with listings of all components, installation manuals (if available) for all manufactured components including, but not limited to, PV modules, inverter(s), combiner box, disconnect, and mounting system.
 - Provide the attachment details, flashing details, construction design for the unit and any support frame members (sealed by the appropriate design professional) for the Wind Zone, additional loading, and any site conditions.
 - For battery backup systems, include a summary of all standby loads, including power ratings and estimated daily energy consumption for each load to show that inverter and battery selection will meet the standby needs.
 - Electrical calculations showing that all wire sizing has been determined with proper ampacity, conduit fill and ambient derating factors.
 - For Hybrid Systems (Combinations of both Photovoltaic System with Solar Thermal Systems):

This type of system shall meet with permitting requirements for both items listed above.

Choose one of the following:

- Florida Solar Energy Center (FSEC) System Approval Report – All solar systems drawings shall be accompanied with a FSEC Approval report
- or-
- Signed and Sealed Engineered Drawings

Revisions After Permits Are Issued

- Submit only 1 copy of the sheets being revised (*Complete set not required*).
- Include a Revision Contract Cost Statement (RCCS), identifying the purpose of the revision and what is being revised.
- All revisions shall be identified and clouded.

Every project is unique, so additional information may be requested.
