Street Address:		
Subdivision:	Lot:	Block:
Property Pin Number:		

Upon making application for a meter installation, I hereby agree to have all underground utilities located and clearly marked prior to the actual meter installation where diggings are required to set the meter. I understand that if the utilities are not marked when the City employees arrive at the job site, the meter will not be installed. This could cause a delay of three (3) to five (5) days for meter installation and delay the issuance of the certificates of occupancy. If utility locations are inaccurately marked and City crews damage the facilities, the developer will be responsible for all repairs and all costs incurred. The service line end needs to be exposed prior to meter installation. Please bill me for the required security deposit.
